Summary

I am a 19 years old highly organised, hard-working, motivated Information Technology student with a huge thirst for knowledge and self-improvement. I am eager to be challenged in order to broaden my horizons with new experiences and further improve my IT skills. Currently studying Front-end Development and planning to gain more experience in this field.

• I learned React exhaustively in CommSchool and I know HTML, CSS and JS thoroughly.
• I am an active Information Technology student at BTU.
