SUMMARY

Dedicated Frontend Developer specializing in creating dynamic, user-friendly applications. I ensure optimal performance and seamless user experiences across multiple browsers. Driven by passion and a desire to overcome challenges. With hands-on experience, I am confident in my ability to make a positive impact in any IT department.

EXPERIENCE

Frontend Developer | SmartSoft ***Jul 2026 - Present***

- Develop interactive iGaming games using **PixiJS**
- Collaborate with an Agile team of animators, graphic designers, developers, testers and UI/UX designers
- Focus on smooth animations, performance optimization and a consistent player experience across different devices and browsers
- Transform design assets from **Figma** and **Photoshop** into engaging, interactive game screens

Frontend Developer | KLIPY ***Feb 2025 - Jul 2026***

API for GIFs, Stickers and other content that empowers apps to boost user engagement.

- Contributed to performance, **SEO** and UX improvements on the KLIPY website built with **Next.js**, enhancing page load speed and search visibility.
- Built a **React-based** partner dashboard enabling integration management and analytics visualization using **Recharts**, helping partners optimize API usage and monetization.
- **Mentored** a teammate through **code reviews**, explaining project architecture, technical decisions and implementation details to encourage knowledge sharing, code quality and professional growth.
- Worked in Agile teams, participating in sprint planning, backlog grooming, reviews and retrospectives
- Used **GitLab** and **Jira** for version control, code reviews, and **Agile/Scrum** workflows

Frontend Developer | Artmedia LLC ***Oct 2022 - Jan 2025***

Artmedia builds digital products and web solutions to overcome any software challenges.

- Built and maintained multilingual web applications including a Georgian tourism platform, place-sharing service, youth development platform and a full-stack WordPress website for a Swedish water purification company.
- Developed dynamic, responsive interfaces using **React**, **Next.js**, **TypeScript**, **Tailwind CSS**, **SCSS**.
- Implemented backend logic and API integrations using **Node.js** and **REST APIs**; managed server-side functionality with **PHP** for **WordPress** projects.
- Implemented end-to-end testing with **Cypress** to ensure reliability and user experience.
- Improved performance and accessibility using **Lighthouse** audits and optimization best practices.
- Worked in an **Agile (Scrum)** environment using **GitHub, Jira,** and **Trello**; participated in standups, sprint planning, grooming, and retrospectives.
- Collaborated closely with designers and developers to deliver visually consistent, responsive, and user-focused interfaces.
- Translated **Figma** designs into production-ready, pixel-perfect, responsive UI components
